TAG

Play 3 times

Repeat until fade-out

*The **accent marks** (>) on beats 2 & 4 indicate to strum with a little more force. *Optional*: add a **palm mute** to give it a percussive, drum-like sound. To palm mute, rest the palm of your right hand on the strings at the same time your pick strikes the strings. The second half of beats 2 & 4 should be clean (not muted).
